Dear Fellow Professionals Working Toward a Secure Retirement,

My name is Thomas R. Okrie. I am 70 years old and a retired teacher from Troy, Michigan. I have spent the last four years of my life as the primary litigant in a legal action against Governor Snyder's repeal of the pension tax exemption (Public Act 38, etc). The attorney on the case is Gary P. Supanich who has done brilliant briefings without adequate compensation. On January 5, 2017, the Michigan Supreme Court has decided to deny our appeal to take the case or revisit their Opinion of November 2011 based on the merits of our facts and charges of unconstitutional **takings**. The State's position is simple: you have no contract to any benefits other than your pension allocation upon retirement and secondly they have made no promise that they are responsible to keep because no one is authorized to make contracts/or promises. Isn't this a clever enticement fraud and a dereliction of responsible stewardship by our elected Government officials who wrote us blatant misrepresentations to work for them(dangling a carrot without substance or true intention to pay for our services)? This cannot stand!

If you would like a formal detailed presentation of this case's history presented live, contact and **FUND A BUCK** to:

Thomas R. Okrie  
Empty Wallet Homestead  
3267 Sand Road  
Port Austin, Michigan 48467

I am willing to come and speak to any group. Or read all the briefs written by Gary P. Supanich. Contact number to **FUND A BUCK**:

In conclusion, we (Gary and I) need funds to continue to bring this important matter to the U.S. Supreme Court. We are seeking 25,000 one-dollar contributions. If you want a secure retirement, this may be the best dollar you may ever spend and the least costly contribution you make to stop the legislative backtracking on vested rights earned and accrued rights waiting to be collected. Don't delay! They (the Government) don't want to pay us! This is repugnantly wrong! And fraudulently unjust! Together, we shall prevail!
