Notes on Sources and Methodology: Data on State Employees (SERS) and School Employees (MPSERS) is actual including the per county numbers, for the fiscal year ending 9-30-10, compiled from reports provided by the Office of Retirement Services. The numbers by county are actual, based upon on actual addresses. The numbers for State Police and Judges are from the Comprehensive Annual Financial Reports for the two systems, and are distributed by county in the same proportion as the totals for SERS and MPSERS. Only universities participating in MPSERS are included.

Municipal retirees and actives are estimated in total from employment numbers published by the US Bureau of Labor Statistics, and the Michigan Labor Market Information Office.

The Municipal numbers were then distributed by county, again based upon the distribution of SERS and MPSERS actives and retirees.

Federal active numbers came from the same source as the municipal numbers. The retiree estimate was provided by a representative of federal retirees living in Michigan. The federal numbers were also distributed in the same proportion as the SERS and MPSERS members. The estimate of dependents was made by the author of this study, based upon census data.
